ALL on occupied lutionary g the col- ing rivers l—that al- the new the glades in Ameri-

ne region, ne people Its tradi- the most d by time en would nufactur- tal of the tain some he stately ern office er ships at Connect- y. ttractions to the ap- ship era, st of the eral other American with the hearty flavor of the Elizabethan stage. Just as steeped in tradition but aiming surely at the future is Yale University. With its museums and libraries, it is one of New Haven's most popular attractions.

The indented shore of Long Island Sound and the wooded Canaan Mountains of the northwest are the major vacation areas within the state, attracting sportsmen, artists and sightseers. Opportunities for hunting, fishing, camping, water sports—and, especially in the north, winter sports—are legion.

MASSACHUSETTS. Every schoolchild knows the name; it means the Pilgrims, the Boston Tea Party, Paul Revere's ride, Lexington, Concord and Bunker Hill. But Massachusetts means more than history. The Berkshires, metropolitan Boston, Cape Cod and the rocky northern shore represent different facets of a very vigorous present. Federal parks embody both: Minuteman National Historical Park centers around Lexington and Concord and Cape Cod National Seashore preserves 27,000 acres of the lovely cape coast.

Boston, Cambridge and their immediate environs are primary destinations in themselves. Both offer marked walking tours among their many points of historical significance. In addition, Boston has such places of interest as the Museum of Fine Arts and the Museum of Science. In Cambridge, the museums of Harvard University and facilities of the Massachusetts Institute of Technology are favorite places to visit.

Although both are crowded summer vacation areas, the Berkshires and Cape Cod retain the kind of timelessness that pervades so much of New England. In summer the Berkshires echo to the symphonic and chamber music of the Berkshire Music Festival, one of the best known of its kind. More out of the way are Nantucket and Martha's Vineyard, islands which still cling closely to the mores of seafaring days.

RHODE ISLAND, the only state to claim a bull-riding clergyman as its first European settler, also boasts the least land, the longest name and the origin of a breed of rufous chicken. For obvious reasons, the full name—the State of Rhode Island and Providence Plantations—is rarely used. This Lilliput, which launched the vast New England textile industry and was summer camp to some of the wealthiest families in the Nation, would fit 475 times into the State of Alaska. It is a giant in Jack's clothing.

In 1636, about a year after William Blackstone and his bull entered the region, Providence was founded by Roger Willaims after his banishment from Massachusetts for religious nonconformity. Now the second city in size in New England, it is the industrial, commercial and educational center, as well as the capital, of the state. It is one of the leading textile and jewelry-making cities in the world. Newport is best known for the massive opulent "summer cottages" that were built by such affluents as the Astors, Vanderbilts and Wideners. Belcourt Castle, The Breakers, Chateau-Sur-Mer, the Elms and Marble House are among the estates open to visitors. The America's Cup yacht race, which has been run for more than 120 years, begins in Newport.

Another popular resort is bluff-girt Block Island, about 20 miles off the coast. Its scenery often is compared to that of Ireland and parts of Scotland.

CAPE COD is many things to many people. To architects, it's a style; to gourmets, a cuisine; to artists, changing moods and patterns of light, color and space. Thousands of summer visitors see it as sunny beaches, gay towns with interesting shops and entertainment, country clubs and, often, a chance to rub elbows with vacationing celebrities. Perhaps more basic is the Cape Cod of the residents. Quiet, self-sufficient and individualistic, they view the cape as a haven where their pleasant, static way of life can proceed undisturbed, even by the annual influx of tourists.

Nature's Cape Cod—the same spectacular dunes, wild beaches, placid pools and open heath that greeted the Pilgrims—remains unscarred by industrial buildup in Cape Cod National Seashore. Weathered cottages, villages and lighthouses accent the isolation. Exhibits and programs are featured at the Salt Pond Visitor Center, off US 6 in Eastham, and the Province Lands Visitor Center, off Race Point Road near Provincetown. There are marked bicycle and nature trails, picnic areas and guarded beaches for swimming. Eventually the national seashore will encompass 27,000 acres.

Physically, Cape Cod curls into the Atlantic, forming the most prominent feature of Massachusetts' irregular coastline. South of it lie Nantucket Island, Martha's Vineyard and the Elizabeth Islands, which guard the entrance to Buzzards Bay. The Cape Cod Canal joins Buzzards and Cape Cod Bays, technically creating an island of the cape.

Although the Mayflower's intended destination had been the Hudson River area, somehow she ended up off Cape Cod in November 1620. While at anchor the Pilgrims drew up the Mayflower Compact to serve as a foundation for their government. Then they sailed across Cape Cod Bay and made their storied landfall.

The fishing villages that evolved on the cape became, by the early 1700's, centers of wealth and commerce. Prosperous sea captains and whalers built elaborate homes and furnished them with articles acquired on their world travels. Of the several such homes that are restored and open as museums, two of the oldest are the Hoxie House (1637) in Sandwich and the Col. John

Ancient cemeteries with poetic epitaphs dot the cape; corn is still ground at 17th-century mills at Sandwich and Brewster. During the early 1800's Sandwich was famous for its beautifully colored glass. A museum houses examples of this rare product, for which the formula is now lost.

Although Provincetown is not the largest of the Cape Cod towns, it is probably the most widely known. Scene of the first landing of the Pilgrims, the isolated community depended on fishing and whaling for its livelihood. Today it is one of the best known art colonies in the country. There is a full schedule of art exhibits, plays and concerts throughout the summer. Hyannis also is a busy nucleus of vacation activities. Its harbor is deep enough for ocean-going yachts and its beaches, especially Craigville Beach, are very popular. Musical entertainment is presented at the Melody Tent all summer. Two candle companies offer an opportunity to view the manufacturing of a wide variety of candles. On Ocean Street is a circular fieldstone wall bearing the presidential seal, a memorial to John F. Kennedy.

From Woods Hole, the major port of Cape Cod, ferries operate to Martha's Vineyard and Nantucket. Several towns on Martha's Vineyard have long been favorite summer resorts: Vineyard Haven, Oak Bluffs and Edgartown. Many old homes still line the narrow streets of Edgartown, oldest settlement on the island. Much of Nantucket's charm also lies in the picturesque houses, cobblestone streets and other relics of its prosperous whaling days. The Nantucket Whaling Museum houses numerous items from that era.
